

## ELECTRIC RESIDENTIAL WATER HEATERS

# JW John Wood™

### Residential Electric Water Heaters

Designed exclusively for plumbing professionals, the John Wood line of residential electric water heaters provides the optimum in reliability, performance and energy efficiency. With unique and patented special features and a broad range of models and sizes, there is a John Wood product to suit any application. Manufactured by GSW, a global leader in water heaters, our complete line of electric water heaters includes leading brand names like John Wood™ PRO Series and SpaceSaver® compact models.

With TankSaver®

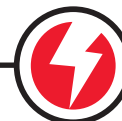

Without TankSaver®

### High Quality Features

- **NEW** Series PRO bottom entry models \*
- Patented TankSaver® design
- Glass-lined tanks for longer life
- Removable anodes
- Meet latest NRCan energy efficiency regulations
- Factory-installed plastic-lined nipples
- Galvanized bottom pan protects water heater from moisture
- Patented Styropour® base for added energy efficiency
- Tamper-resistant drain valve
- Thermostatically controlled long life elements
- Durable textured finish
- CFC-free foam insulation
- T&P now included

### Exclusive, patented innovation.

The exclusive and patented TankSaver® design works to prolong tank life. TankSaver® impedes corrosion by guarding metal tank openings from exposure and keeping them watertight. The durable construction virtually eliminates rust.
